ALMAHDI AHMED

FRONT-END DEVELOPER

My name is Almahdi Ahmed. I am a self taught front-end developer. I build responsible functioning websites. I use latest web technologies such as React, Next.js and tailwind CSS to build my websites.

SKILLS

- HTML • CSS • Tailwind CSS
- Javascript • React • Next.js • Git
- Github • MongoDB

EXPERIENCE

These projects demonstrate my skills and experience

Real Estate Company

This is a real estate company landing page that I have built using next.js, next.js routing features and tailwind CSS for responsive design.

Blog App

This is a gym blog app that I have built using next.js, next.js routing and tailwind CSS for responsive design. In this project I used mongoDB from creating my back-end

---

EDUCATION
